

## Cutting edge Tele Radiology Service From a world leader in healthcare

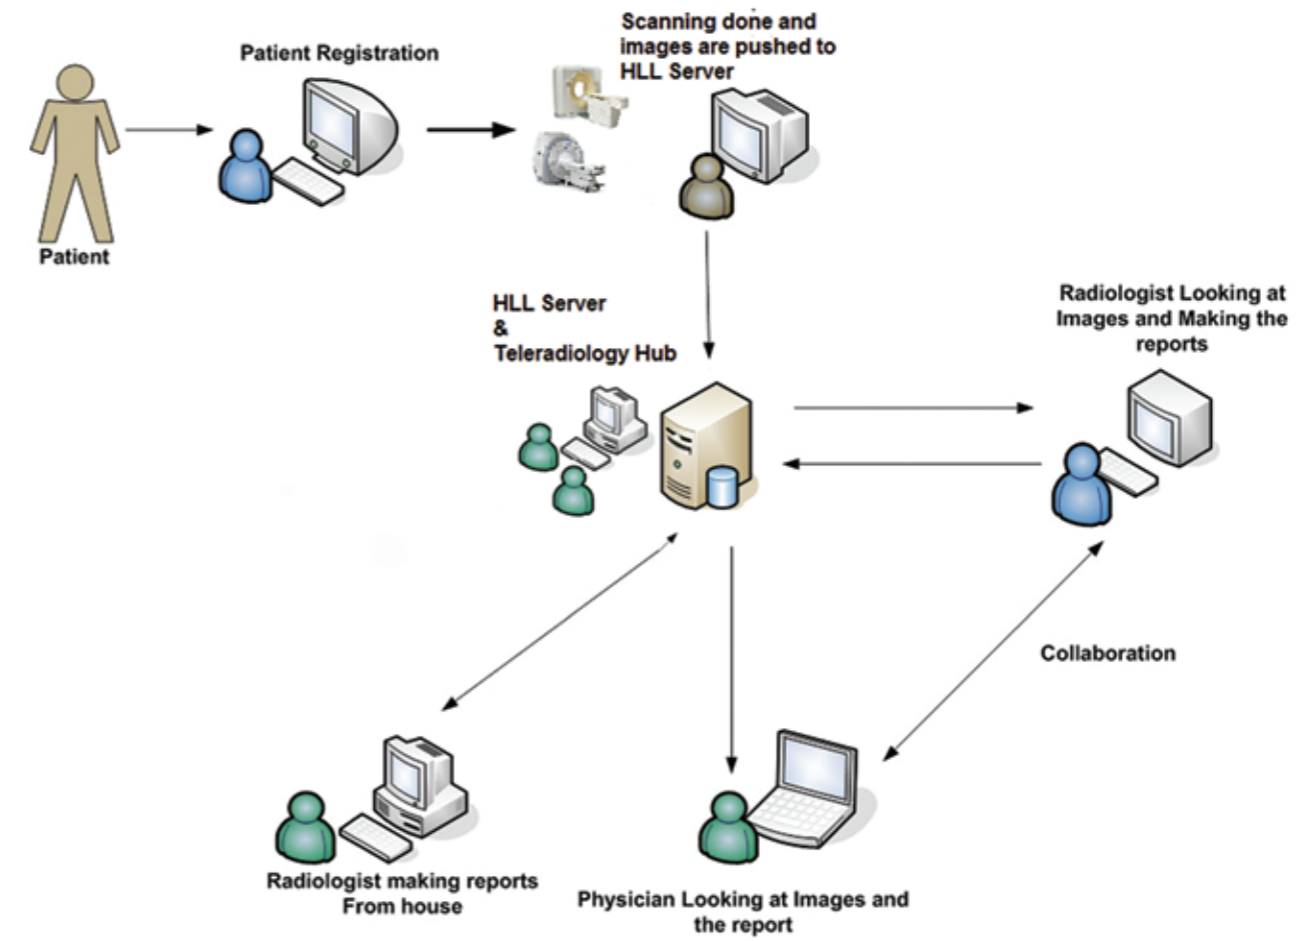

### About HLL

HLL Lifecare Limited (HLL) is a Public Sector Enterprise, under the Ministry of Health & Family Welfare, Government of India. Started in 1966 as a single product company, over the years HLL has grown into a multi-product, multi-service, multi-location healthcare delivery company with pan-India operations and presence in more than 115 countries. Today, HLL has emerged as HLL Group with 7 subsidiary and associate organisations.

HLL Health Care Services Division is a major service initiative of HLL to provide quality healthcare services at affordable rates for the benefit of common public. Under the brand name HINDLABS, the Health Care Services Division of HLL offers quality Diagnostic Services such as Medical Laboratory Services and Medical Imaging Services at affordable rates.

HINDLABS is having Tele Radiology facility which provides comprehensive Tele Radiology reporting solutions to various public and private healthcare organisations in India and abroad. The panel of Radiologists coming under the network of HINDLABS Tele Radiology facility consists of eminent and experienced Radiologists with high proficiency in speciality reporting that includes neuro-radiology, musculo-skeletal imaging, pediatric imaging, abdominal imaging etc.

### HINDLABS Tele Radiology – fast results

Healthcare facilities have been battling a severe shortage of radiologists for more than a decade now. Indeed, the demand for radiology services is skyrocketing. The rapid evolution of faster imaging technologies such as multi-slice CT, faster MRI scanners and sequences, coupled with an ageing population has led to a consistent per year increase in imaging volumes in recent years. And it is in this context, Tele Radiology comes into the picture offering solutions for an ongoing issue.

Tele Radiology paves the way for radiologists to read images from remote locations, round-the-clock. HINDLABS Tele Radiology service is one of the pioneer Tele Radiology services in India.

With a robust network of radiologists, HINDLABS Tele Radiology service is offering cost-effective reporting solutions to various public and private healthcare organisations in the country. Through a synergy of patient focus, great people and modern technology, HINDLABS Tele Radiology service provides flexible tailor-made solutions for Hospitals that can support the health institutions to deliver diagnostic reports quickly, reducing a great deal of delay in patient care. HINDLABS Tele Radiology service also provides quality radio diagnostic services to hospitals in rural India and diagnostic centres across the country.

### HINDLABS Tele Radiology service offers the following services

- Routine Reporting Service- Radiology reporting/reading services from dedicated and highly qualified Radiologists.
- Second Opinion Service- provides Second Opinion for critical cases, desired by the concerned Hospitals.
- Peer Review Service- helps to improve the internal reporting quality of the service-user which is mandatory for JACHO& QCI certification.
